CQM Kingfish Shootout
901 Geddie Road
Tallahassee, FL 32304

Dear Tina, Lindsey, and Kristy,

Wow!! Congratulations and *THANK YOU* for your incredible efforts in producing such a successful *20th Annual Kingfish Shootout* at C-Quarters Marina on June 17.

The event raised an impressive \$86,000 for the Leukemia Research Foundation and brought historical totals from your support to an amazing \$1.2M+!! Extra thanks to Kristy who was wonderful in her role as tournament director. The new, colorful logo, catchy website, and consistent social media posts are impressive and certainly motivated all the participants.

Through your kindness, the Leukemia Research Foundation is able to continue funding the cutting edge research that has led to significant advancements in the treatment of leukemia. The path to a cure is through research, and the Foundation has been funding research for more than 77 years. Over the years, we have relied on the generosity of many to lead the fight to find a cure. The Foundation receives no government grants and is not a United Way agency. We are helping to save more lives than ever before, but a cure remains elusive. That is why the support of C-Quarters, the participants, sponsors, and entire Crowder family mean so much.

We hope you will continue to follow the progress of the Foundation by frequently visiting our website at www.leukemiarf.org and all social media platforms. .

Congratulations once again and thank you very, very much.

Sincerely,

Kevin Radelet
Executive Director

*You are all tremendous!
Thank you (KR)*
