Dear Tina, Lindsey, and Kristy,

Thank you for your extraordinary support of the Leukemia Research Foundation and for understanding the need to fund innovative medical research while empowering those living with a leukemia diagnosis. The commitment, dedication, and energy you and the C-Quarters team put forth every year is exemplary and deeply appreciated.

This year's Kingfish ShootOut was yet another tremendous success raising \$143,300 for the cause and increasing your historical totals to just under \$1.5 million in tribute to Lisa and Jimmie. Included, of course, are the two checks directly from CQM as noted below\*.

The financial totals and exposure generated by your tournament are incredible and have done so much to further the Foundation's mission. Those results are extremely impressive and serve as a testament to all your family, friends, sponsors, and participants.

As the nation's largest nonprofit focused exclusively on funding leukemia research, our research grants are accelerating the development of new and better treatments and an ultimate cure for leukemia. In addition, your support also helps us provide critical support programs to patients and their families offering them education, comfort, and assistance.

The stories of courage and strength featuring those who have battled leukemia provide ongoing motivation to continue our pursuit. Then there are those, like you, who are so especially notable in making our progress possible.

Congratulations and thank you again for everything. You are truly exceptional and have touched more lives than you'll ever know.

Sincerely,

**Kevin Radelet**
